Patrons of Surfside Marina:

As spring quickly approaches and a new boating season is about to begin, Surfside has undergone a few changes in the off season that we would like to share with you. First off, my name is Chris Stokes and I will be managing the marina this season along with my brother Ryan. Ryan and I have been operating our own mobile marine service, S&W Marine, for the past few years. Our goal is to make Surfside a full service marina providing you with reliable and timely service regardless of the issue. We will be offering, all types of engine work, detailing, and PWC repair as well as marine electronics sales, installation, and service. As the season progresses, the marina will continue to undergo minor changes in an effort to improve customer convenience.

To help us get underway; attached is a checklist of services and specials we are offering to get everyone ready for spring. Please send it back or stop by and drop it off at your earliest convenience. We are looking forward to meeting and working with everyone at Surfside Marina. If you have any questions or concerns please feel free to call the office or send an e-mail and we will do our best to help.

Thank You,

Chris Stokes
